A vibrant, multi-colored hallway with large 3D numbers on the wall and a person in the foreground. The ceiling is a grid of colorful panels in shades of blue, purple, red, orange, yellow, and green. The wall features large, white, 3D numbers: '9', '6', '1', '2', and '1'. A person is visible in the foreground, slightly blurred, looking towards the right. The overall scene is bright and modern.

FACILITIES AND CAPABILITY

Here at East Side Signs, we boast an impressive set of in-house facilities that allow us to take almost every project from concept through to completion without the hindrance of requiring third party production that can slow the process. Coupled with experienced staff and specially designed proprietary workflow systems, we are uniquely positioned to get the job done right, from digital printing to 3D Fabricated signs.

PRINT & VINYL

Our Printing Facility offers the highest quality of end products onto substrates like Vinyl, PVC materials, Canvas and much more. We also offer different grades and quality of solid colour vinyl products. We manufacture products like Pull-up Banners, Self Adhesive Stickers, Large format Vinyl Prints, PVC Banners and Graphics to be used for Vehicle Branding.

CNC ROUTING

Utilizing our accurate CNC Router we can profile cut shapes, letters, logos from substrates: Aluminium, Acrylics, Perspex, MDF Wood, Rigid Foam Materials and engrave into Aluminium with the highest level of quality and workmanship.

LASER CUTTING

Our Laser cutting gets done on a maximum bed cutting size of 1200mm x 800mm and delivers high end products from Acrylic, Perspex, MDF Wood and PVC plastics into the desired shapes require with again the highest level of accuracy.

INSTALLATION

Our signage expertise is not just limited to the inside of our factory. We also employ dedicated installers and have direct access to trusted contractors for additional manpower where needed delivering an exquisite end product.

METHODOLOGY AND WORK PLAN

Preparation & Planning

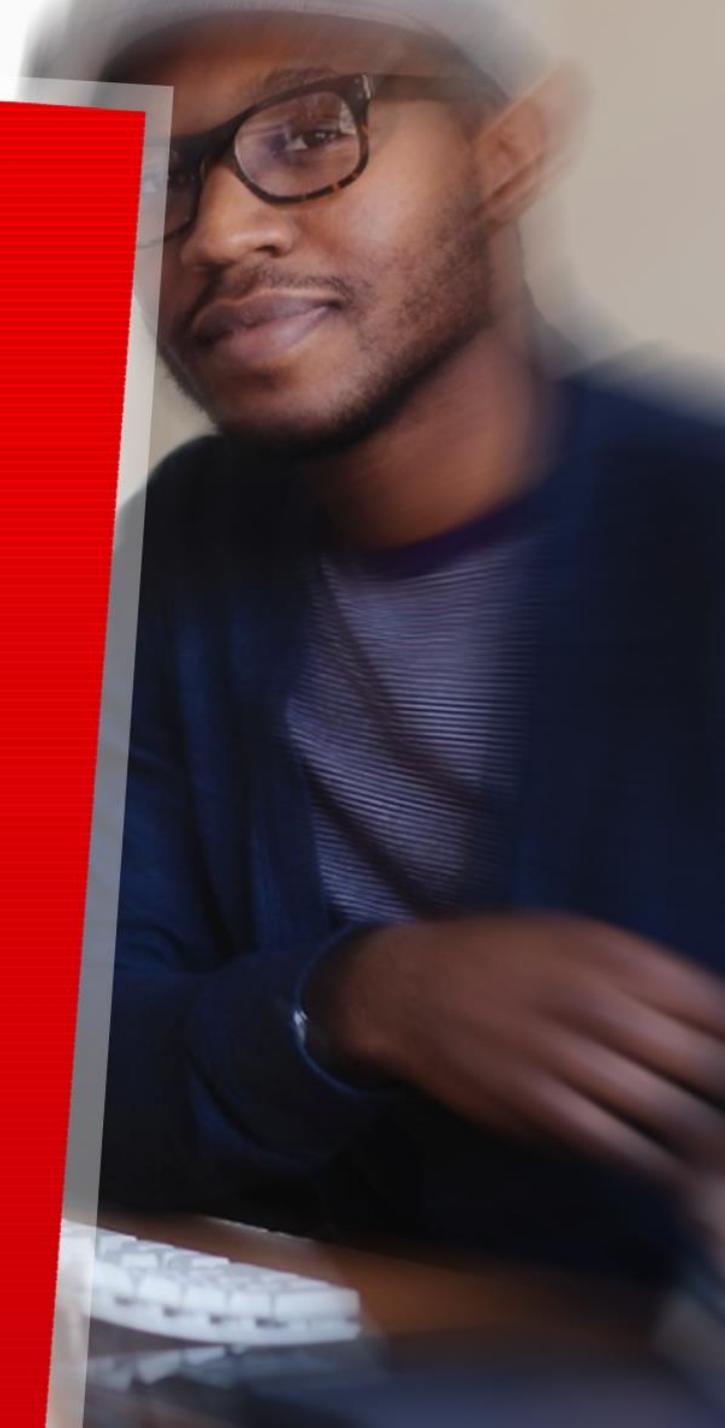

Upon acceptance of the quote, a job sheet and schedule is prepared using our proprietary workflow management software developed to allow us to best manage your project. If artwork is required, this is produced by our graphic designers and submitted for your approval. When all proposed designs and construction methods have been finalised and signed off, the files and documents are distributed to individual departments as necessary. A production meeting is now held for all supervising staff to discuss the project and help facilitate the necessary interdepartmental collaboration to get the job done right within the confines of your time frame. Following this, our Purchasing Officer orders all materials and assigns stock to your project. Our network of local suppliers ensures we get the best materials for the job in a timely fashion.

Production

Each department carries out their assigned roles and a daily production meeting is also held to report on work and resolve outstanding issues. During production the Individual departments take ownership of the project by keeping running quality checks. This is also verified by the Project Manager on a daily basis to make sure all works meet your standards and expectations.

Install & Delivery

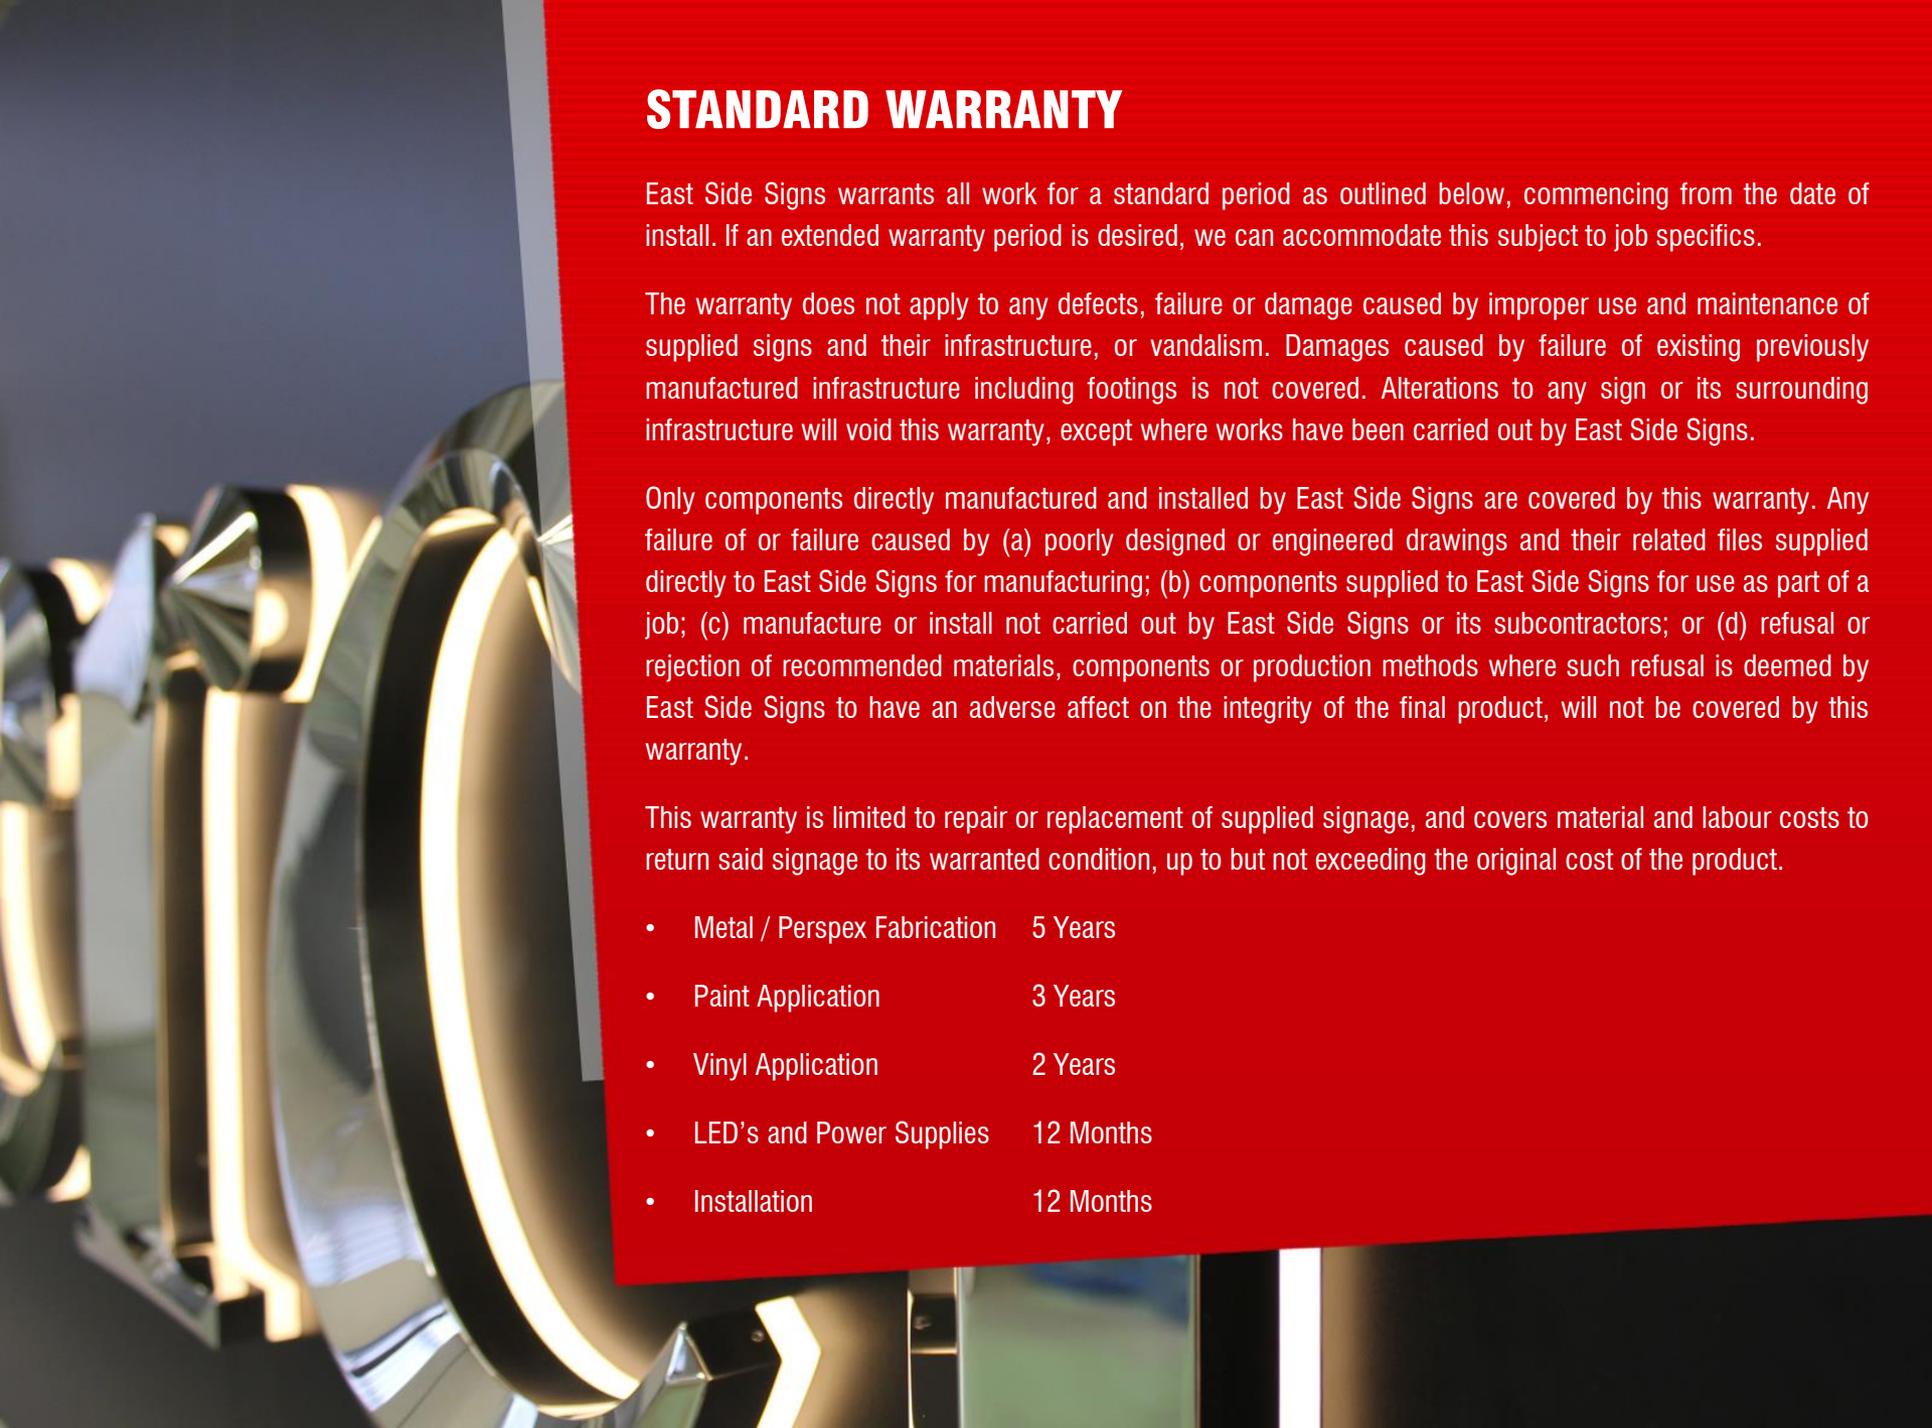

Based on the individual job requirements, we can either have the works delivered to the required destination, or installed. Completed signs are properly wrapped and packaged to eliminate the possibility for damage during transit. We have in our employ a number of installers and appropriate vehicles for transport as well as access to trusted subcontractors, and are also happy to work alongside your own preferred installation team if needed. Once installed, signs and site alike are cleaned and for sign-off.

STANDARD WARRANTY

East Side Signs warrants all work for a standard period as outlined below, commencing from the date of install. If an extended warranty period is desired, we can accommodate this subject to job specifics.

The warranty does not apply to any defects, failure or damage caused by improper use and maintenance of supplied signs and their infrastructure, or vandalism. Damages caused by failure of existing previously manufactured infrastructure including footings is not covered. Alterations to any sign or its surrounding infrastructure will void this warranty, except where works have been carried out by East Side Signs.

Only components directly manufactured and installed by East Side Signs are covered by this warranty. Any failure of or failure caused by (a) poorly designed or engineered drawings and their related files supplied directly to East Side Signs for manufacturing; (b) components supplied to East Side Signs for use as part of a job; (c) manufacture or install not carried out by East Side Signs or its subcontractors; or (d) refusal or rejection of recommended materials, components or production methods where such refusal is deemed by East Side Signs to have an adverse affect on the integrity of the final product, will not be covered by this warranty.

This warranty is limited to repair or replacement of supplied signage, and covers material and labour costs to return said signage to its warranted condition, up to but not exceeding the original cost of the product.

- Metal / Perspex Fabrication 5 Years
- Paint Application 3 Years
- Vinyl Application 2 Years
- LED's and Power Supplies 12 Months
- Installation 12 Months

HEALTH AND SAFETY POLICY

Workplace Health and Safety is of critical importance in the planning, organisation and undertaking of our operations. It is the policy of East Side Signs to conduct all activities in such a way that the health, safety and wellbeing of workers and any others encountered over the course of a given project is not in any way impaired or prejudiced as a result of the actions of our staff or company.

As such, we have developed an Occupational Health and Safety Procedure and Policy manual which is strictly enforced within our company. Our objectives in the implementation of this Policy specifically include:

- Compliance with all relevant statutory duties, regulations, industry codes and standards, as well as making adequate provision of resources to meet these requirements.
- To provide adequate information, instruction and training for workers and others to increase personal understanding of work, health and safety hazards and to ensure proper supervision and support, including the proper handling of chemicals.
- To ensure that adequate and safe plant and equipment, personal protective equipment and working environments are maintained, including handling of hazardous substances throughout East Side Signs's operations.
- To involve workers, suppliers and clients in all work, health and safety matters, and to consult with them in ways to reduce hazards and improve control methodologies.

- To eliminate work related injury and illness and minimise work, health and safety risks throughout our operations.
- To establish ongoing objectives in work, health and safety management as part of an ongoing action plan, and to regularly review its performance and that of its officers and general supervisors against the objectives of this policy. East Side Signs recognises that health and safety is both an individual and a shared responsibility of all workers and others involved with the operation of the organisation. In this regard, we emphasise the need to follow and adhere to safe work practices at all times, to ensure that no person is exposed to an uncontrolled health and safety risk for themselves or any other person, and to develop an ever-improving safety culture within our company.

There is no task so important or urgent that it releases an organisation or its employees from their responsibility to ensure a safe and healthy work environment for everyone.
