Executive Summary

NOBMATEC PROJECTS (PTY) LTD is a building maintenance company which has grown significantly in the country. Since its inception the company has grown significantly whilst still maintaining its values and can-do approach. As a natural progression from building, reactive and planned maintenance we also carry out quoted minor works and refurbishments and can handle larger building projects. We specialize in both the commercial and domestic services sectors, providing all major and minor planned construction works and all types of maintenance.

About Us

As a leading building maintenance company, our promise is to deliver a tailor-made solution to meet the highest standards in the industry. We have been providing services to many of the companies across a broad range of industries for several decades. These cover a wide range of corporate and blue-chip .

We are proud to say that our client list continues to grow significantly. Along with offering a quality service we always pride ourselves on ensuring that we not only meet, but surpass your business needs, and always for the best possible price.

We are one of the most dynamic and highly experienced company with a long track record of getting it right. As a result, we are establishing ourselves as one of the leading company across the Southern Africa through our rapid response and commitment to your building and maintenance needs. We guarantee that you will receive an effective domestic and commercial property building and maintenance service, ensuring your business continues to run smoothly.

Our team is made up of highly talented and experienced individuals who operate a hands-on approach, following the company values of working in partnership, not only with the customer but with its contractors. This approach makes us professional and transparent giving everyone concerned a sense of confidence. We understand the importance of keeping buildings well maintained, ensuring your facilities can operate at peak performance, while also looking their best. Private and public sector clients both benefit from our comprehensive range of building maintenance services. These include planned preventative maintenance, response maintenance, estate management and modernization work. Our work covers local authorities, housing associations, educational and health authorities, commercial estates, individual building stock and other facilities.

Our dedicated Building and Maintenance team can manage this process from conception to completion, adhering to the exceptional standards we set for our business & employees at all times.

Our mission

Our mission is simple and provides our focus. We want to strengthen local communities by providing vital services which can help improve the lives of millions of people.

Our vision

Is to support our people in delivering industry leading services by being an employer that: supports their development, provides a safe working environment, recognizes, celebrates and promotes their achievements and delivers on our promises to them.

Projects & Contracts

We offer both Project Management & Contracting to various clients throughout the country within the commercial, retail, healthcare, public, education sectors etc.

SERVICES

Electrical Installations & Repairs

We provide a range of affordably-priced and industry-leading electrical maintenance, repair and installation services to our clients, we do this by having a dedicated team of certified electricians and a service-oriented delivery model.

Kitchen Canopy/ extraction system cleaning and repairs

Plumbing

Roof Repairs

We can offer you first class roofing maintenance services, roofing installations and roofing repair services for very affordable and competitive prices. We provide both domestic and commercial roofing services.

Painting

We believe that painting the interior and exterior of your factory, warehouse or facility, is vital in preventative building maintenance and creating that appealing fresh look.

Our painting services meet strict procurement requirements, schedule of works, health and safety statements & best practices, exceeding current legislation & building controls.

Gutter Installation, Maintenance and cleaning

Let us take control of your gutters and down-pipes without planned cleaning regimes. We offer annual or bi-annual cleans for your building or portfolio at a competitive price to ensure that your risk of roof leaks or damage is reduced. Not only do we offer cleaning services to guttering but also full relining and repairs.

Waterproofing

We have been providing an uncompromising level of quality and service to the industrial sector since 2011. Our mission to provide our clients with lasting solutions that not only work but guarantee value and quality every single time.

We do not only specialize in roof coating and waterproofing, but also repair the resultant damage caused by the roof leak. Should there be budget constraints, we offer short term repair solutions as you need.

Our services include IBR and Corrugated roof waterproofing, roof sheet replacement, concrete roof waterproofing and maintenance, balcony waterproofing, and basement waterproofing which includes car parks and store rooms. We believe that matching the correct product with application and technique, is vital in the success of the waterproofing

project. We can provide solutions using bitumen waterproof torch on as well as acrylic and liquid systems to best suit every waterproofing dilemma.

Damp Proofing

We treat the rising damp, lateral damp and water penetrating damp. We are market leaders in the damp specialist industry and have been since 2011.

We offer a full turnkey damp proofing service, from technical support, inspections, reporting and quoting to full project planning and onsite management.
