

# Tiny Tau

*E-Waste Management*

## COMPANY PROFILE

**Registration No.:2019/338645/07**

*“To resolve the problem of unsafe dumps and landfills by assisting businesses, organisations and communities in getting rid of obsolete electronics and safeguard the environment. We aim to contribute in reducing greenhouse gas emissions, skills development and job creation.”*

### COMPANY HISTORY

Tiny Tau E-Waste Management is a private company. Founded in 2019 July by Tiny Taukobong, the company is registered as Tiny Tau (Pty) Ltd, trading as Tiny Tau E-Waste Management.

We operate within a business management structure according to identified key and secondary processes as well as to all legislative requirements. We are committed in providing a high quality service for the disposal of electronic waste in compliance with all relevant legislations as enforced by local, national and international authorities. We are striving to maintain our environmental management standards as set by EWASA.

### BUSINESS GOALS AND OBJECTIVES

Our goal is to protect health and the environment by providing reasonable measures for reducing, recycling and reusing of electrical and electronic equipment.

*Our Objectives:*

- Raise awareness among different stakeholders on various aspects of electronic waste management
- To establish incentives for encouraging investors for establishment of electronic waste management facilities in the townships
- To enable the recovery and reuse of useful material from electronic waste for reduction of hazardous electronic waste destined for disposal
- To encourage the community to avoid waste disposal and promote refurbishment electronics for recycle and reuse
- To collect or buy obsolete electronic devices from the public at a low price or offer to collect from companies for free
- To disassemble components for processing as scrap or resale.

## **GROWTH STRATEGY**

Through our commitment of providing quality services the business will provide uncompromised high-quality output. All works and services will be rendered with the highest standards.

## **OUR VISION**

Our vision is to establish a standard and world class electronic recycle company whose products and brand will be accepted nationally.

## **MISSION**

To resolve the problem of unsafe dumps and landfills by assisting businesses, organisations and communities in getting rid of obsolete electronics and safeguard the environment. We aim to contribute in reducing greenhouse gas emissions, skills development and job creation.

## **SERVICES**

Recycling raw materials from end-of-life electronics is the most effective solution to the growing e-waste problem in our communities. Most electronic devices contain a variety of materials, including metals that can be recovered for future uses. By dismantling and providing reuse possibilities, intact natural resources are conserved and air and water pollution caused by hazardous disposal is avoided.

*Our services include:*

- Recycling electrical and electronic waste
- Collection of redundant electronic equipment
- Providing an offer to purchase working electrical and IT equipment designated for refurbishment
- Secure data destruction – issue the certificate
- Offer Buy-Back option to ensure controlled and sustainable handling and recycling of redundant and obsolete equipment.

Other specialised services will be offered based on customer requirements.

## **BUSINESS COMPETITIVENESS:**

- Conduct awareness in informal areas
- Offer rewards for referrals
- Provide free collection transport on over 1 ton equipment in Gauteng Province and 5 ton in any other provinces.

We are situated in Pretoria North in Soshanguve, we intend to provide service to local clients and surrounding. We aim to grow to provide our services nationally.

## **VALUES:**

To promote safe environment and services delivery whilst actively developing our company become reputable.
